Product Engineering Index of New Materials and Parts Marketed During 1931

ALLOYS

Page

American Steel Foundries
"Hylastic" vanadium - manganese steel 570

Apex Smelting Co.
"Perm-Brite" aluminum alloy 284

Aurora Metal Co.
"Stronger-Than-Steel" aluminum-bronze die-castings 139

Bethlehem Steel Co.
Bethadur corrosion- and heat-resisting steels 523
"Cobaflux" magnet steel 526

Handy & Harman
"Sil-Fos" silver alloy for brazing 378

Jones & Laughlin Steel Corp.
Special high-sulphur Bessemer screw steel 525

Illinois Zinc Co.
"Eraydo" zinc-base alloy 332

Industrial Furnace Corp.
Z-Metals—annealed white cast irons 477

Industrials Steel, Inc.
"Cro-Tung" corrosion- and heat-resistant steel 523

Republic Steel Corp., Central Alloy Div.
Enduro-"F C" free-cutting stainless steel 570

Union Drawn Steel Co.
Special carburizing steel 571

Westinghouse Electric & Mfg. Co.
"Hipernick" iron-nickel alloy 333

Wheelock, Lovejoy & Co., Inc.
"Economo" low-carbon machinery steel 525

BEARINGS

Amplex Mfg. Co.
"Oilite" bearing material 140

Bunting Brass & Bronze Co.
Hard-bronze bearings 237

Federal Bearings Co., Inc.
Grease-sealed bearing 475

Hoover Steel Ball Co.
"Duoseal" ball bearings 284

Johnson Bronze Co.
Self-lubricating bushings 379

Majestic Tool & Manufacturing Co.
Parker "Hi-Speed" ball bearings 236

Norma-Hoffmann Bearings Corp.
Series "7000" felt-protected ball bearings 573

Robins Conveying Belt Co.
"Robins-Jones" oil-circulating bearing 238

Shafer Bearing Corp.
Self-aligning roller bearing units 473

Standard Steel & Bearings, Inc.
Wide-inner-ring, single-row ball bearings 283

Tyson Roller Bearing Corp.
Cageless, tapered roller bearings 279

CHAINS

Lathrop-Paulson Co.
"L-P." ball and socket conveyor chain 381

Link-Belt Co.
Universal No. 77 conveyor chain 329

Morse Chain Co.
"Pumpkin-Seed" chain 471

Whitney Manufacturing Co.
Reversible side-guide silent chain 138

CLUTCHES

Dodge Manufacturing Corp.
"Diamond-D" friction clutch 280

Fairfield Engineering Co.
Landahl shaft backstop 280

Hill Clutch Machine & Foundry Co.
Hill-Pulvis centrifugal clutch 44

Magnetic Manufacturing Co.
"Stearns" multiple-disk magnetic clutch 187
"Stearns" improved multiple-disk magnetic clutch 472

Universal Gear Corp.
"Pitter" improved one-way clutch 186

COUPLINGS

Crocker-Wheeler Electric Mfg. Co.
Edmunds flexible coupling 188

Morse Chain Co.
Midget chain-wrapped coupling 284

Penn Machine Co.
Davis flexible coupling 471

Smith & Serrell
Francke cross-type flexible coupling 141

The Washburn Shops
Rawson automatic-starting flexible coupling and clutch 189

DRAFTING ROOM EQUIPMENT

Brown, E. S.
"New Facila" protractor triangle 138

Dempster, J. R.
"Rotarule" circular slide rule 285

Ditto, Inc.
Copying machine 89

Long Co., W. H.
"No-Ink" drawing board top 92

Lyon Metal Products, Inc.
"Li-flat" blueprint cabinets 571

Pease Co., C. F.
"Junior" sheet dryer 88
"Peerless" Model 25 blue-printing equipment 478
"Kyano" blueprinting process 526

ELECTRICAL EQUIPMENT

Allen Bradley Co.
Bull. 609 a.c. starter 93
Bull. 201 and 701 contactors 426
Splash-proof starter for squirrel-cage motors 429
Face-plate speed regulator for slip-ring motors 573

Allis Co., Louis
Air-break motor starter 88

B-L Electric Mfg. Co.
Small 75-watt rectifier 572

Condit Electrical Mfg. Corp.
Type A-30-R air motor starter 45

Cutler-Hammer, Inc.
Bull. 9739 controllers 42
Bull. 9115 manual across-the-line starter 330
Reversing starter for small motors 332
D.c. speed regulator 427
Auto-transformer starter 525
Rubber attachment cap 571
Float-operated motor starter 573

General Electric Co.
Magnetic switch 44
Switches for changeable-pole motors 89
"Selsyn" speed controls 136
Automatic time switch 472

Master Electric Co.
Explosion-resisting motor and switch 186

Monitor Controller Co.
Oil-immersed starter 41
Printing press controllers 89
Push-button switch 91
Push-button master station 93
Slip switch 138
Lotrip switch 185

Robbins & Myers, Inc.
1,000-watt a.c. thermostatic snap switch 472

Square D Co., Industrial Controller Division
"I-C" manual starter 45
Power filter unit 329

Struthers-Dunn, Inc.
"Dunco" relay for thermostatic control 236
"Mid-Gett" relays 331

Trent Co., Harold E.
Electrical heating elements 41
Strip heater 381

Westinghouse Electric & Mfg. Co.
Type WK switch 46
Starters for wound-rotor motors 141
Type C explosion-tested d.c. line-starter 332

FASTENINGS

A.G.A. Co.
"Elastic" stop nuts 237

Allen Manufacturing Co.
Socket-head shoulder screws 94

Groove-Pin Corp.
Groov-Pins and Drive-Studs 523

Kraberhall, Inc.
"Safety-Nuts" 92

Shakeproof Lock Washer Co.
Self-locking setscrew 94

Safety Nut Corporation
"Safety Nut" brake lock nut 235

Thompson-Bremer & Co.
"Everlock" die-formed lock-washer 330

Wyrick Engineering Co.
"Wyr-Omat-ick" clearance compensator 40
"Wyeco" Klip nuts and spacers 447

FINISHES

Brevolite Lacquer Co.
No. 700 and "Brevo Bake" undercoats 331

DuPont de Nemours & Co., Inc.
No. 1130 metal lacquer 429

Udylite Process Co.
Ornamental finish 331

GEARS

Philadelphia Gear Works
"Philweld" welded steel gears 238

Lukenweld, Inc.
Welded rolled-steel gear blanks 285

HYDRAULIC EQUIPMENT

American Engineering Co.
Hele-Shaw 5-hp. electro-hydraulic transmission 475

Brown & Sharpe Mfg. Co.
No. 55 rotary geared pump 186
No. 4 geared pump 332
Pressure relief valve 570

Chicago Pump Co.
N-type pumps 236

Fulflo Specialties Co.
Non-chattering oil relief valve 380

Northern Pump Co.
Nitralloy-steel pumps 237

Oilgear Co.
Type WES constant-pressure pumps 279
Type QR-2 and QWR-2 variable delivery pumps 378
Type RQ-2 fluid motor 426

Roper Corp., George D.
Series 909 and 911 hydraulic pumps 45

Ross Operating Valve Co.
Operating valves 284

Ruthman Machinery Co.
Grinder pump 281

Vickers Incorporated
Hydraulic pump 92
Hydraulic relief valve 333
Hydraulic relief valve 427

Worthington Pump & Machinery Corp.
Type D centrifugal pump 429

INSTRUMENTS

Brown Instrument Co.
Potentiometer pyrometer 285

Westinghouse Electric & Mfg. Co.
Recording instruments 93
Wilson-Maeulen Co., Inc.
"Tapalog" recording pyrometer 284

LUBRICATING SYSTEMS

Bijur Lubricating Corp.
Automatic industrial lubricating pump 526
Daun-Walter Co.
Adjustable-wick oil-feed unit 187
Constant-level oil control 281
Gits Bros. Mfg. Co.
Automatic multiple oiler with gravity feed 328
Hills-McCanna Co.
Improved lubricators 91
Lubrication Devices, Inc.
"Farval" improved Dualine lubrication system 278
Nathan Manufacturing Co.
Automatic oil feeders 42
Visco-Meter Corporation
Viscosity indicator 428

MOTORS

Bodine Electric Co.
Type N-5 motors 91
Vertical motors with wool-packed bearings 524
Type V series universal motor 527
Century Electric Co.
Fractional-hp. motors 281
Christian, J. D.
"Rite-Lo-Speed" ball-bearing motor 283
Daun-Walter Co.
Motor inclosure 332
Howell Electric Motors Co.
Types EKCL and EKBB inclosed motors 187
Type CI motors 279
"Red Band" Adjustable-shaft motor 572
Ideal Electric & Mfg. Co.
Unit-type motor 43
Drip-proof motor 282
Lincoln Electric Co.
"Link-Weld" totally inclosed fan-cooled motors 45
Master Electric Co.
Geared-head motors 185
Meissner Mfg. Co.
Miniature synchronous motor 427
Ohio Electric Mfg. Co.
Torque motors 428
Reliance Electric & Engineering Co.
Large fan-cooled motors 43
Motors with drip covers 138
D.c. vertical motors 474
Small d.c. motors 528
Robbins & Myers, Inc.
Box-frame motors 139
Washing-machine motors 429
Sterling Electric Motors, Inc.
Motors with herringbone rotors 91
"Klosd-Tite" motor 328
Watson-Flagg Machine Co.
Front-gear motors 44
Westinghouse Electric & Mfg. Co.
W-Frame, Type CS, squirrel-cage motor 282
Steel mill motor 426
Totally inclosed fan-cooled motor 474

MOTOR-BELT DRIVES

Kritzer Co.
Floating motor drive 280
Rockwood Mfg. Co.
Short-center, flat-belt drive 188

PACKING

A. & E. Co.
"Plasket" packing material 184
Diamond Rubber Co., Inc.
Asbestos packing 331
"U"-Type hydraulic packing 470
Garlock Packing Co.
Asbestos-gasket "Button Hole Tape" 331
No. 430 Chevron packing 331
No. 701 industrial brake lining 528

PHOTO-ELECTRIC APPARATUS

Allen-Bradley Co.
Photo-electric apparatus 524
Burgess Battery Co.
Vacuum contact 379
Radiovisor bridge 473
Light relay and light source units 572
Struthers-Dunn, Inc.
Light-sensitive cell unit 524

PLASTICS

Continental-Diamond Fibre Co.
"Codite" thermoplastic compound 235
Toledo Synthetic Products, Inc.
"Plaskon" urea-base plastic 522
United States Rubber Co.
"Victron" molding compound 190

PULLEYS

Allis Chalmers Mfg. Co.
"Texsteel" V-belt sheaves 330
American Pulley Co.
Wedgbelt pulleys 380

SHEET METAL AND PLATE

American Nickeloid Co.
"Chromaloid" satin-finish sheet 137
Industrial Development Corp.
Electro-deposited sheet copper 524
Lukens Steel Co.
Nickel-clad steel plate 283
Republic Steel Corporation
Toncan Iron tin plate 525
Superior Steel Corporation
Su Veneer composite rustless steel 522
Welded Alloys, Inc.
"Plykrome" composite steel plate with stainless surface 470
Zurbach Steel Co., L. E.
"Zurcosteel" steel sheets 527

SPEED REDUCERS

Adams Co.
Multi-speed reducers 89
Foote Bros. Gear & Machine Co.
"Hygrade" leakproof, vertical, worm gear speed reducer 188
Gears & Forgings, Inc.
Two-speed worm gear speed reducer 523
Hammond Machinery Builders, Inc.
Variable-speed pulley 572
Horsburgh & Scott Co.
Worm-gear speed reducers 139
James Manufacturing Co., D. O.
Vertical speed reducer 328
Jones Foundry & Machine Co., W. A.
Series OH worm-gear reducers 329
Herringbone-Maag speed reducers 381
90-D and 105-D Herringbone Maag speed reducers 472
Ohio Gear Co.
Speed reducer with 4-speed gear shift 41
Philadelphia Gear Works
Welded-steel speed reducer housings 381
Production Equipment Co.
Motorized speed reducer with two-shaft extensions 187
Reeves Pulley Co.
Inclosed transmission 184
Automatic electric control 522
Vertical transmission with pivoting motor base 528
Stephens-Adamson Mfg. Co.
Variable-speed drive with integral motor 88
Westinghouse Electric & Mfg. Co.
Westinghouse - Wise multi-speed drive 234

TESTING EQUIPMENT

American Instrument Co., Inc.
"Aminco" metallographic polishing machine 282
Chemical Rubber Co.
Metallographic polishing machine 90
Electrocon Corporation
Model 3 "Vibroscope" 94
Leitz, Inc., E.
Improved micro-metallograph 90
Olsen Testing Machine Co.
Firth Hardometer hardness testing machine 380
Ductility testing machine 527
Motor-driven Brinell hardness testing machine 527
Warner reverse bending machine 527
Pittsburgh Instrument & Machine Co.
"Diamo" Brinell hardness tester 43
Riehlé Bros. Testing Machine Co.
Precision hydraulic universal testing machine 475
Southwark Foundry & Machine Co.
Wazau hardness tester 42
"Foeppl-Pertz" damping tester 139
Foeppl-Heydekampf static and dynamic bending machine 235
Timken Roller Bearing Co.
Lubricant tester 140

TUBING

Bundy Tubing Co.
"Bundyweld" copper-lined steel tubing 283
Detroit Seamless Steel Tubes Co.
Lined seamless tubing 330
Globe Steel Tubes Co.
Stainless steel tubing 185
Sky Specialties Corp.
Rubber-covered metal tubing 238

VALVES AND FITTINGS

American Car & Foundry Co.
"A.C.F." Milliken valves 137
Automatic Temperature Control Co., Inc.
Type 1 control valve 571
Bonney Forge & Tool Works
Welding fittings 476
Champion & Barber, Inc.
Pressure gage protector 427
General Electric Co.
Solenoid-operated valve 381
Ludlow Valve Mfg. Co.
"Multi-Valve" construction 474
Merian Co.
Pulsation shock absorber for gages 428
Midwest Piping & Supply Co., Inc.
Welding fittings 477
Ohio Brass Co.
Blow gun valve 473
Tagliabue Mfg. Co., C. J.
"Tag" steam trap 379
Taylor Forge & Pipe Works
Steel fittings for welding 476

WIRE ROPE AND CABLE

General Cable Corp.
"Alectral" aluminum wire and cable 137
Hazard Wire Rope Co.
"Korodless" chrome - nickel - steel wire rope 141

MISCELLANEOUS

Amthor Testing Instrument Co., Inc.
Operation recorder 525
Buffalo Pulley & Caster Co., Inc.
Swivel casters 93
Clarage Fan Co.
Type V fan wheels 378
Cooper Oven Thermometer Co.
Oven heat control 138
Fansteel Products Co., Inc.
Tungsten products 187
General Electric Co.
Oil burner equipment 189
Gilmer Co., L. H.
"Speedage" fabric belt 186
Gross Engineering Corp.
"Leadhesion" coating process 527
Hitchcock Co.
"Covulc" self-curing plastic rubber 43
Logansport Machine Co.
Model "GN" foot-control air valve 570
Ludlow-Saylor Wire Co.
"Spring Steel" woven-wire screen 439
Mercoid Corp.
Type TU furnace control 141
Nelson Brothers Co.
"Jumbo" fractional-hp. gas engine 474
Stuart & Co., D. A.
"Sturaco" gear lubricants 525
Veeder-Root, Inc.
Pretermining counter 142
Wiegand Co., Edwin L.
Chromalox super-speed range units 331

PRODUCT ENGINEERING

PUBLISHED MONTHLY

INDEX TO VOLUME 2

January to December, 1931

PUBLISHED BY THE McGRAW-HILL PUBLISHING COMPANY, INC.
330 West 42d Street
New York, N. Y.

December 529-580

Advertising:
Sales appeal for radio cabinets win prizes *85

Air Compressors:
Self-contained, direct-connected two-stage air cooled compressor *83
Air conditioning unit for home *439

Airplanes:
Autogiro planes 322, 84, *355
Aviation design trends. L. E. Neville. *37
Battleplane 396
Crude oil airplane motors 274
"Flying Bull Pup" and amphibion plane 180
Junkers aircraft engine - vibrations damped by fluid friction. K. O. Wittmann *74
Metalclad dirigible for army 82
Navy folding plane *131
One material planes—Northrop and Lockheed. C. F. McReynolds *319
Pilgrim transport *488
Propellers for airplane use 228
Retractable landing gear *230
Sikorsky "flying yacht" interior *221
Stainless steel *534
Steam turbines may drive transport planes 488
Stout's "Sky Car" *228
Wind tunnels: interviews with E. P. Warner and W. A. Coulter *402
Wing frame of Allegheny metal *325
Airship Akron *343, 370, 487

Aluminum:
Aluminum parts for aluminum structures. S. G. Malby *546
Colors in aluminum by plating, dyeing, oxidizing. J. D. Edwards *107
Developments in field 440
Intricate shapes die-cast in aluminum bronze *151
Locomotive of aluminum 273
American Gear Mfgrs. Assn.:
Discuss tip relief 518
American Society for Steel Treating:
Convention 466
American Society for Testing Materials:
Materials discussed at meeting 325
American Society of Mechanical Engineers:
Applied Mechanics Division meeting .. 365
Profess in metals 7

Appearance and Finishes:
Color—dress of the product. T. J. Maloney *304
Colors in aluminum by plating, dyeing, oxidizing. J. D. Edwards *107
Consumer engineering *221
Design for electroplating. Gustaf Soderberg *262
Dials and indicator plates. H. R. Whittier *24
Finish standards. R. M. Gamble 268
Lacquers for stamped and formed parts. Leo Roon *162
Lower costs at higher prices. P. B. Swinton 60
Modern form in design. S. G. Warner. *349
Molded parts of cellulose acetate. J. F. Walsh *72
Needed in the product—art expression. O. Kuhler 214
Silvery platings where the color counts. H. Whitehead *171
Style expressed by materials, finish, form. C. L. Phillips *310
Wear tests on finishes 273
What of undercoats? 75
Appliances, electric 345

Art:
Needed in the product—art expression. O. Kuhler 214
Product of today. D. R. Dohner 420

Automobiles:
Auburn car—bargain psychology in product development. G. H. Kublin. *452
Body design changes at the auto show 36
Dual coach chassis showing method of mounting twin engines *35
Franklin engineering stresses appearance. E. S. Marks 8
International Race—Diesel engine performance 303
1931 cars incorporate noteworthy improvements. H. Chase *56
Plymouth's floating power plant. Herbert Chase *415
Radical changes coming in automotive design. Herbert Chase *373
Rotor principle used on steering gear .. 130
Automobiles. See also Bus.
Balancing machine, dynamic 132

Bearings:
American needle bearing. S. R. Castor. *225
Chart for thrust bearing friction moment determinations (Ref. Bk. Sheet) *239
Discussion of friction moments. A. B. Asch 318
Felt as a bearing seal. Jule Marshall. *508
How bearing clearance, journal deflection and oil grooves affect lubrication. L. J. Bradford *123
Needle bearings developed in Europe. *174
Roller bearings for heavy duty. D. E. Batesole *119
Steel-backed bearing metal 84
Bending moments, chart for determining (Ref. Bk. Sheet) *287
Bicycle paradox. J. L. Alden. J. P. Ferris. L. S. Michael. F. Franz *224, *365, *366, *420
Blower-light weight propeller-type 84
Boilers, welded drum 273

Book Reviews 10, 77, 122, 150, 205, 264, 298, 348, 420, 464, 486, 532
Bottle making machine. Graland Lufkin. *102

Brakes:
Heat radiating capacity of clutchse and brakes. A. C. Rasmussen *529
Location of brake shoe centers (Ref. Bk. Sheet) *497
Buffing machine with welded base *167

Bus:
Development goes forward. Stocks & Theisinger *510
Fageol city service bus *370
New models in Macks and General Motors 179
Service design in—Yellow Coach: interview with G. A. Green *216
"Taxi-coach" *274
Trolley bus *304
Yellow Coach coupling for engine exhaust pipes *316
Yellow Coach removable engine and rear axle unit *439
Business platform—it all comes back to the product 145
Calculations for designs standardized. V. Tatarinoff 30
Camera mechanism designed for 20,000 pictures per second. F. H. Colvin. *172
Canning machinery: interview with O. H. Hansen *358
Canning machines 130
Cans for shipping fruit juices 178

Case School of Applied Science & Cleveland Engineering Society:
Educational Industrial Conferences ... 466

Castings:
Brass die castings *345
Die castings for domestic pumps. L. H. Labaw *446
High pressure with steel castings. W. H. Jacobi *245
High strength in steel castings *493
Intricate shapes in aluminum bronze. *151
Lower costs at higher prices. P. B. Swinton 60
Visualizing design on expensive castings *31
When designing steel castings. E. E. Veihl, Jr. *352
Cellulose acetate—molded parts of. J. F. Walsh *72
Centrifugal saturating and drying machine. *394
Chain drives. G. M. Bartlett. *152, *253, *299

Chains:
Determination of chain lengths. Bartlett & Gottlieb (Ref. Bk. Sheet) .. 335
Standard tables for design of roller chain drives (Ref. Bk. Sheet) 383
Chemical process equipment *249
Circuit breaker 83
Combination of switch and protective devices *131
Clock, "bichronous" 395
Clock electrifying kit 229

Clutches:
Heat radiating capacity of clutches and brakes. A. C. Rasmussen *529
Proportions for toggle friction clutches. A. Mitchell *268
Reversal of high-speed spindles by friction clutches. J. A. Hall *52
Coal car 272
Color. See Appearance and Finishes.
Conic ovates roll like a ball. G. E. Witte. *127

Conveyors:
Shaker conveyor *83
Tubular vibrator conveyors 84
Cork, industrial uses of. F. L. Munroe ... *266
Costs:
Control of the budget in design; interview with W. C. Stevens 246
Cotton looms, progress in design *363

Cotton Picker:
One process picker, unification of three machines *200

Couplings:
For engine exhaust pipes *316
Positive adjustable coupling. A. W. Knight 55
Cover and door fastenings. F. A. Firnhaber *504
Cranes:
Railroad crane *229
Crossing:
Highway-rail *229
Right amount of metal in the right place. F. W. Slantz *385
Cylinder-block cleaning machine 132
Dairy machinery. G. S. Brady *550

Design:
Consider the production man. R. H. Beebe *22
Control of the budget in design; interview with W. C. Stevens *246
Design or invention? H. A. Toulmin, Jr. 62
Distinctive design for a dime *61
Dreams and the depression. G. B. Stuart 312
Electroplating design. Gustaf Soderberg *262
Functions classified by activity 371
Modern form in design. S. G. Warner. *349
Needed in the product—art expression. O. Kuhler 214
On the square. P. B. Swinton 6
Redesign eliminates 1,400 parts. H. W. Hem *494
Redesigning trial models. H. Zarafu .. *295
Section modulus, not moment of inertia. R. M. Nardone 79
Special machinery design. H. F. Crawford 517
Swinton is wrong! D. Fliegelman 79
Development, product 501
Dials:
Indicator plates and dials. H. R. Whittier *24
Dimension, projection methods for calculating *516
C. H. Hinman *465
A. R. Kligman *346
Door and cover fastenings. F. A. Firnhaber *504
Drafting. See Drawings.
Draftsman, Loring Roper 318

Drawings:
Beam compass substitute. J. E. Hyler. 317
Decimal dimensions. C. J. Harter ... 174
Finish code for drawings. E. Heller. 78
Gear tooth outlines. F. S. Beach ... *317
Identifying drawing changes. J. F. Hardecker 175
Instrument holders for the drafting machine. D. C. Bailey *269
Small quantity reproductions. H. H. Sullivan 269
Thumb tack pad on drafting machine. L. Coon *127
Tool for drawing large radii. H. W. Boehly *173
Trisecting angles. F. T. Smith *464
Visualizing design on expensive castings *31

Drilling Machines:
Drilling machines *322
4-way 229
Horizontal (Hydrauger) 131
Reversing motor applied to *82
Drilling and tapping machines *272

Drives:
Automatic overload — reverse mechanism. J. R. Cornelius *30
Roller chain drives. G. M. Bartlett ... *152, Pt. 2 *253, Pt. 3 *299
Standard tables for design of roller chain drives (Ref. Bk. Sheet) 383
Two wheel auxiliary unit 35
Dump car, locomotive 273
Dump wagon 229
Duralumin boom *395
Duralumin planes. C. F. McReynolds *319
Dynamometer auto-gage *84
Dynamometers, paradoxical. E. K. Ambler. *515
Edison, Thomas A.—brief history *518
